Statement of Opposition

We, the undersigned property owners, hereby protest the proposed Rezoning from the R-1 zoning district(s) to the R-2 zoning district(s)

as requested by Trubridge MultiFamily LLC - 103-033-000-070-00

The Rezoning is scheduled for action by the City Council on 2/9/2026.

Among the reasons for opposing the proposed rezoning from R-1 to R-2 are the following:

- The subject area has long been zoned and planned for single-family residential development, with an anticipated build-out of approximately 40 single-family homes and is one of only two remaining areas within the designated City for such development.
- The proposed development is not consistent with the existing character of the surrounding neighborhood, which is predominantly single-family in nature.
- The proposal allows for multi-family and manufactured housing at a substantially higher density, including narrower street widths than are typical with the City.
- The increased density is expected to significantly increase traffic and congestion on the subject property and adjacent roadways.
- There is concern regarding the potential negative impact on nearby property values and overall neighborhood stability.

Statement of Opposition

We, the undersigned property owners, hereby protest the proposed Rezoning from the R1 zoning district(s) to the R2 zoning district(s) as requested by Trowbridge Multifamily LLC - 103-033-000-070-00
The Rezoning is scheduled for action by the City Council on 2-9-26 (date)

Among the reasons for opposing the proposed rezoning from R-1 to R-2 are the following:

- The subject area has long been zoned and planned for single-family residential development, with an anticipated build-out of approximately 40 single-family homes and is one of only two remaining areas within the designated for such development.
- The proposed development is not consistent with the existing character of the surrounding neighborhood, which is predominantly single-family in nature.
- The proposal allows for multi-family and manufactured housing at a substantially higher density, including narrower street widths than are typical within the City.
- The increased density is expected to significantly increase traffic and congestion on the subject property and adjacent roadways.
- There is concern regarding the potential negative impact on nearby property values and overall neighborhood stability.

4. Following adoption of any amendment, supplementation or change to this Zoning Ordinance, one (1) notice of adoption shall be published in a newspaper of general circulation in the City within fifteen (15) days after adoption. Any amendments to this Ordinance shall take effect on the 8th day after publication or at a later date as may be specified by the City Council at the time of adoption.

E. Protest Petition.

Upon presentation of a protest petition meeting the requirements of this subsection, an amendment to a Zoning Ordinance which is the object of the petition shall be passed only by a two-thirds (2/3) vote of the City Council. The protest petition shall be presented to the City Council before final action on the amendment, and shall be signed by one (1) of the following:

1. The owners of at least twenty (20) percent of the area of land included in the proposed change.
2. The owners of at least twenty (20) percent of the area of land included within an area extending outward one hundred (100) feet from any point on the boundary of the land included in the proposed change.
3. Publicly owned land shall be excluded in calculating the twenty (20) land area requirement under subsections E.1 and E.2.

F. Resubmittal of Application for Rezoning.

An owner of property, his/her authorized agent, or other person, shall not initiate action for rezoning affecting the same parcel more often than once every year. An exception to this rule may be made in those cases where the Planning Commission determines that conditions affecting the property have changed substantially, thereby justifying a repetition before one (1) year has elapsed from the date of the previous petition.

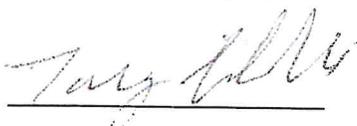

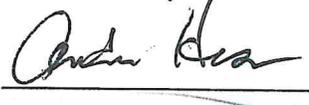

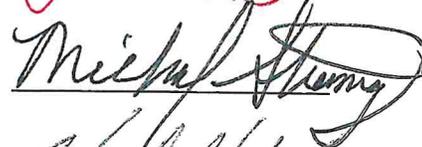

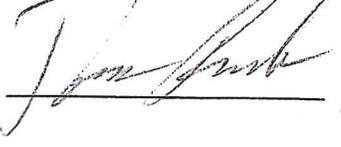

Section 10.3 Rezoning Factors

The Planning Commission shall review and apply the following factors in the consideration of any rezoning request:

- A. Is the proposed rezoning consistent with the goals and objectives of the current Master Plan?
- B. Are all of the allowable uses in the proposed district reasonably consistent with surrounding uses?
- C. Will there be an adverse physical impact on surrounding properties?
- D. Have there been changes in land use or other conditions in the immediate area or in the community in general which justify rezoning?
- E. Will rezoning create a deterrent to the improvement or development of adjacent property in accordance with existing regulations?
